EDUCATION

B.Sc. Automation

Technical University of Cluj-Napoca

2023 – Present

- Courses:** Data Structures, Algorithms, OOP, SQL, OS.

Baccalaureate

Col. Naț. “Andrei Mureșanu”

2019 – 2023

SKILLS

Programming & Data:

Python (Pandas, Scikit-Learn)

C/C++

Matlab

Java

SQL

Tools:

Git/GitHub

Linux

Jupyter

HTML/CSS

Wordpress

SOFT SKILLS

Analytical Thinking

Technical Writing

Research & Documentation

Time Management

LANGUAGES

Romanian

English (B2)

CERTIFICATIONS

- Cybersecurity** (Google/UTCN)
- Blockchain** (eCornell)

PROJECTS & EXPERIENCE

Driver Fatigue Detection using EEG & ML

Personal Project

Feb 2026

- Developed a Python-based system to detect drowsiness using **Spectral Analysis** and **Random Forest**.
- Implemented a robust preprocessing pipeline (Filtering, Artifact Removal) for raw EEG signals using **MNE-Python** and **Scikit-Learn**.

IoT Environmental Security System

Personal Project

2023

- Designed a full IoT stack using **ESP8266** and C++.
- Implemented real-time data visualization and sensor integration.

Founder & Team Lead – Web Development Team

Local Initiative

2021

Bistrița

- Founded a team to build digital presence for local NGOs.
- Built responsive sites using **HTML**, **CSS**, **JS** & **WordPress**.

Co-Founder & Robotics Team Member

High School Robotics Team (FTC)

2022 – 2023

Bistrița

- Co-founded the high school robotics team, AtomicBots, securing initial funding and recruiting members.
- Member of programming department using **Java** for programming the robot.

Organizer – Teens in AI Hackathons

National Hackathons, Romania

2021 – 2022

- Coordinated two national AI hackathons (50+ participants).

HONORS & AWARDS

Bronze Medal

National Information Technology Olympiad, 2023
